Scenario Briefing

Good afternoon driver. Following the withdrawal of Class 321/322 sets by Northern Rail, some of these units have been leased by Greater Anglia to cover stock shortages as they wait for new rolling stock to be delivered. The units are being overhauled at Doncaster and then moved to Clacton CSD for commissioning. Rail Operations Group have been contracted to undertake the ECS moves from Doncaster and today you have been rostered on to one of these movements. You are now approaching Stratford where you've encountered a signal check. Once you get underway you'll be heading to Colchester Carriage Sidings where you have a booked wait before you head over to Clacton. The maximum permitted speed of your train is 75 mph.
