Operational Information: Nothing

## Scenario Briefing

Good evening driver. Today you are in charge of an early evening ScotRail passenger service from Glasgow Queen Street to Edinburgh Waverley. You are in platform 5 at Queen Street so open the doors to allow passengers to board and then get ready for a prompt departure.

Once underway you'll be calling at Croy, Falkirk High, Polmont, Linlithgow, Haymarket and Edinburgh Waverley.

One thing to be aware of driver. Due to an earlier failed train there is only one line currently open at Newbridge Junction so be prepared for wrong line working and possible delays in that area between signal EN508 and signal EN572. Should you encounter any red signals between signal EN508 and signal EN572 please contact the signaller for permission to pass. Additionally, there may be workers trackside in the vicinity of the failed train so please move through the area with caution.

Your train is formed of 2 x 3 car Class 385 sets and the maximum permitted speed for your train today is 100 mph.

## Weekly/Daily/Special Operating Notices

None
