Max Speed: 125 mph

Train Length: 235m (771ft)

Train Weight: 414 tons

Operational Information: Nothing

Scenario Briefing

Good morning driver. Today you are in charge of a morning LNER passenger service from Harrogate to Kings Cross. Having left Harrogate a while ago you've arrived at Leeds so open the doors to allow passengers to board and then get ready to depart.

You are scheduled to depart here at 10:05 but you are running late so you can depart as soon as permitted. Once underway you'll be calling at Wakefield Westgate and Doncaster on this leg of your journey.

Your train is formed of a 9 car Class 800 and the maximum permitted speed for your train is 125 mph if running under electric power or 100 mph if running under diesel power.

Weekly/Daily/Special Operating Notices

None

Timetable

	Schedule			
Location	Arrival	Pass	Departure	Platform/Line

Notes

This scenario has been built around the player adhering to the given maximum speed and following the given schedule. Without those elements, the scenario may not play as intended. All trains are taken from the timetable in operation on the day the scenario is set with adjustments here and there to cater for TSC and gameplay. Additionally, the scenario reflects what happened on that specific day.
