Sky & Weather Enhancement Pack 2.0 - available from Armstrong Powerhouse

https://www.armstrongpowerhouse.com/enhancements/general/sky_weather_enhancement_pack_2.0

Installation

The RIS181_1Y01_Ipswich_to_Liverpool_Street.zip file should contain 4 files:

this readme

RIS181_1Y01_0512_Ipswich_to_Liverpool_Street.rwp

RIS181_1Y01_0512_Ipswich_to_Liverpool_Street_Scenario_Briefing.pdf

RIS181_Stock_List.pdf

To install the rwp file, run the Train Simulator Utilities program from your Steam\SteamApps\common\RailWorks\ folder. Once the Utilities program is running, click the package manager tab at the top of the screen followed by the Refresh button on the right hand side. Once the refresh is complete, click the Install button on the right hand side, navigate to the location where you unzipped the RIS181_1Y01_Ipswich_to_Liverpool_Street.zip file, select the rwp file and click the Open button. This should install the scenario.

Notes

This scenario has been built around the player adhering to the given maximum speed and following the given schedule. Without those elements, the scenario may not play as intended.

In a previous life I commuted on the GEML and you would frequently see Class 08 locomotives at Ilford Depot. Additionally for many years there was a brakevan stored in a siding at Shenfield. I think it has been removed now but I like to include both of these items in my Great Eastern scenarios. Of course you can replace them with any Class 08 or brakevan if you don't have the items I've used. As always, RIS181_Stock_List.pdf has details of the paths used for all rolling stock so you can double-check to ensure you have the items the scenario requires but everything is easily swappable in either TS_Tools or LocoSwap.

Feedback

I always welcome feedback so if you have any questions or constructive feedback on this scenario then you can leave a comment either on the download page for the scenario itself at <https://anakhastscenarios.com> or on the Anakha's TSC Scenarios thread at the Railworks Forum at <https://rail-works.freeforums.net/thread/1583/anakha-tsc-scenarios>.
