Inside SN\_AP you should find the following bin files:

375\_DMOSA\_2-2\_MT.bin  
375\_DMOSA\_2-3\_MT.bin  
375\_DMOSA\_2\_MT.bin  
375\_DMOSB\_2\_MT.bin  
375\_DMOSB\_MT.bin

375\_MOSL\_MT.bin  
375\_PTOSL\_2\_MT.bin

375\_TOSL\_2\_MT.bin

Copy the files from SN\_AP to:

Railworks\Assets\DTG\LondonGillingham\RailVehicles\Electric\Class375\SN\_AP

That should give you everything you need to run the scenario. If it doesn't and I've made any mistakes with the bin files, or including everything needed then please let me know.
