Difficulty: Easy

Train Type: Diesel [D]
Train Category: Railhead Treatment Train
Max Speed: 60 mph
Train Length: 38m (127ft)
Train Weight: 136 tons
Operational Information: Nothing

Scenario Briefing

Good morning driver. The RHTT season is now underway and one of the diagrams for Carlisle based units is via Newcastle to Nunthorpe with part of the route covering the Nessland Lough branch line. Today you've been rostered on to this service and you've now reached Ballafoy where you've had a booked stop in Ballafoy West yard. You are due to depart here at 06:45 so get everything ready for a prompt departure. Once underway again you'll be heading to Nessland Fort.

A Network Rail MPV set has been allocated for the service today and the diagram is timed for a maximum speed of 60mph.

Weekly/Daily/Special Operating Notices

None

Timetable

	Schedule			
Location	Arrival	Pass	Departure	Platform/Line
Ballafoy West Yard	---	---	06:45	1
Ballafoy	---	06:47	---	1
Wisdom Street Sidings	06:53	---	06:56	1
Schooner Beach	---	07:01	---	
Nessland Fort Siding	07:05	---	---	

Notes

The Goldstar MPV is an excellent piece of rolling stock and I was keen to create a scenario for it. I choose the Nessland Lough route because I think it's a nice route but, most importantly, it's compact so the scenarios themselves are short and sweet. Of course there's a large slice of fiction as, from what I can work out, the RHTT trains this year from Carlisle are all operated by DRS Class 66 locomotives.
