Other Payware (Optional)

Sky & Weather Enhancement Pack 2.0 - available from Armstrong Powerhouse

https://www.armstrongpowerhouse.com/enhancements/general/sky_weather_enhancement_pack_2.0

Installation

The RIS187_1M80_Low_Fell_RMT_to_Willesden_PRDC_Part_2.zip file should contain 4 files:

this readme

RIS187_1M80_2143_Low_Fell_RMT_to_Willesden_PRDC_Part_2.rwp

RIS187_1M80_2143_Low_Fell_RMT_to_Willesden_PRDC_Part_2_Scenario_Briefing.pdf

RIS187_Stock_List.pdf

To install the rwp file, run the Train Simulator Utilities program from your Steam\SteamApps\common\RailWorks\ folder. Once the Utilities program is running, click the package manager tab at the top of the screen followed by the Refresh button on the right hand side. Once the refresh is complete,

click the Install button on the right hand side, navigate to the location where you unzipped the RIS187_1M80_Low_Fell_RMT_to_Willesden_PRDC_Part_2.zip file, select the rwp file and click the Open button. This should install the scenario.

Notes

This scenario has been built around the player adhering to the given maximum speed and following the given schedule. Without those elements, the scenario may not play as intended. .

The majority of freight wagons used in this scenario are static stock located in sidings (particularly at Doncaster and Peterborough) so could be replaced with any wagons you would see on the current UK network if you don't have the items I've used and don't want to purchase them. Additionally, I've used the default stock that comes with the InterCity Class 91 Loco Add-On and that isn't accurate in terms of the livery the stock is currently running with. If you want a more accurate livery then I **think** there may be a reskin available on Alan Thomson Sim but I'm not 100% sure if there is or isn't. As always, RIS187_Stock_List.pdf has details of the paths used for all rolling stock so you can double-check to ensure you have the items the scenario requires but everything is easily swappable in either TS_Tools or LocoSwap.

Feedback

I always welcome feedback so if you have any questions or constructive feedback on this scenario then you can leave a comment either on the download page for the scenario itself at <https://anakhastscenarios.com> or on the Anakha's TSC Scenarios thread at the Railworks Forum at <https://railworks.freeforums.net/thread/1583/anakha-tsc-scenarios>.
