HHA-E Graffiti Patch - available from Train Sim Community

<https://www.trainsimcommunity.com/mods/c1-train-sim-classic/c13-patches/i4040-hha-e-graffiti-patch>

Installation

The RIS203_1P66_Middlesbrough_to_Manchester_Part_1.zip file should contain 4 files:

this readme

RIS203_1P66_0927_Middlesbrough_to_Manchester_Part_1.rwp

RIS203_1P66_0927_Middlesbrough_to_Manchester_Part_1_Scenario_Briefing.pdf

RIS203_Stock_List.pdf

To install the rwp file, run the Train Simulator Utilities program from your Steam\SteamApps\common\RailWorks\ folder. Once the Utilities program is running, click the package manager tab at the top of the screen followed by the Refresh button on the right hand side. Once the refresh is complete, click the Install button on the right hand side, navigate to the location where you unzipped the RIS203_1P66_Middlesbrough_to_Manchester_Part_1.zip file, select the rwp file and click the Open button. This should install the scenario. More details on installing 3rd party content in TSC can be found at [3rd Party/Freeware Installation Guide](#).

Notes

This scenario has been built around the player adhering to the given maximum speed and following the given schedule. Without those elements, the scenario may not play as intended.

Almost all of the freight wagons used in this scenario are static items you might expect to see in York & Tees yards (Hopper wagons, Bogie Box wagons, Steel carrying wagons) so could be replaced with anything similar if you don't have the items I've used. As always, RIS203_Stock_List.pdf has details of the paths used for all rolling stock so you can double-check to ensure you have the items the scenario requires but everything is easily swappable in either TS_Tools or LocoSwap.

Feedback

I always welcome feedback so if you have any questions or constructive feedback on this scenario then you can leave a comment either on the download page for the scenario itself at <https://anakhastscenarios.com> or on the Anakha's TSC Scenarios thread at the Railworks Forum at <https://railworks.freeforums.net/thread/1583/anakha-tsc-scenarios>.
