Victoria	07:41	---	---	14

UM - Up Main
 UF - Up Fast
 UQ - Up Quarry
 UBF - Up Brighton Fast

Notes

Between East Croydon and Victoria FPS for me is around 20 and I have deliberately included very little static stock in sidings so the route does look a little bare in places. Additionally, this scenario has been built around the player adhering to the given maximum speed and following the given schedule. Without those elements, the scenario may not play as intended. All trains are taken from the timetable in operation on the day the scenario is set with adjustments here and there to cater for TSC and gameplay. Additionally, the scenario reflects what happened on that specific day.
