Other Payware (Optional)

Sky & Weather Enhancement Pack 2.0 - available from Armstrong Powerhouse

https://www.armstrongpowerhouse.com/enhancements/general/sky_weather_enhancement_pack_2.0

Installation

The RIS220_2M88_Leeds_to_Manchester_Piccadilly_Part_2.zip file should contain 4 files:
this readme

RIS220_2M88_1947_Leeds_to_Manchester_Piccadilly_Part_2.rwp

RIS220_2M88_1947_Leeds_to_Manchester_Piccadilly_Part_2_Scenario_Briefing.pdf

RIS220_Stock_List.pdf

To install the rwp file, run the Train Simulator Utilities program from your Steam\SteamApps\common\RailWorks\ folder. Once the Utilities program is running, click the package manager tab at the top of the screen followed by the Refresh button on the right hand side. Once the refresh is complete, click the Install button on the right hand side, navigate to the location where you unzipped the RIS220_2M88_Leeds_to_Manchester_Piccadilly_Part_2.zip file, select the rwp file and click the Open button. This should install the scenario. More details on installing 3rd party content in TSC can be found at [3rd Party/Freeware Installation Guide](#).

Notes

This scenario has been built around the player adhering to the given maximum speed and following the given schedule. Without those elements, the scenario may not play as intended.

You may encounter false red signals in the Slaithwaite area. If you do then you can TAB through them and proceed at line speed.

All of the wagons used in this scenario are static stock so could be replaced with virtually anything that you might see sitting in sidings on the current UK rail network if you don't have what I've used and don't wish to purchase/download the items. As always, RIS220_Stock_List.pdf has details of the paths used for all rolling stock so you can double-check to ensure you have the items the scenario requires but everything is easily swappable in either TS_Tools or LocoSwap.

Feedback

I always welcome feedback so if you have any questions or constructive feedback on this scenario then you can leave a comment either on the download page for the scenario itself at <https://anakhastscenarios.com> or on the Anakha's TSC Scenarios thread at the Railworks Forum at <https://rail-works.freeforums.net/thread/1583/anakha-tsc-scenarios>.
