

Title: (RIS222) OC53 18:51 Exeter Riverside North Yard to St Blazey Sorting Sidings (Part 2)

Version: 1.0

Description

Take a Class 66 locomotive to St Blazey. In this part you'll go from Plymouth to your final destination. Please see RIS222_OC53_1851_Exeter_River-side_North_Yard_to_St_Blazey_Sorting_Sidings_Part_2_Scenario_Briefing.pdf for your complete briefing including schedule.

Requirements

Route - Payware

Western Mainlines - available from Just Trains

<https://www.justtrains.net/product/western-mainlines>

And

Installation

The RIS222_OC53_Exeter_Riverside_to_St_Blazey_Part_2.zip file should contain 4 files:

this readme

RIS222_OC53_1851_Exeter_Riverside_North_Yard_to_St_Blazey_Sorting_Sidings_Part_2.rwp

RIS222_OC53_1851_Exeter_Riverside_North_Yard_to_St_Blazey_Sorting_Sidings_Part_2_Scenario_Briefing.pdf

RIS222_Stock_List.pdf

To install the rwp file, run the Train Simulator Utilities program from your Steam\SteamApps\common\RailWorks\ folder. Once the Utilities program is running, click the package manager tab at the top of the screen followed by the Refresh button on the right hand side. Once the refresh is complete, click the Install button on the right hand side, navigate to the location where you unzipped the RIS222_OC53_Exeter_Riverside_to_St_Blazey_Part_2.zip file, select the rwp file and click the Open button. This should install the scenario. More details on installing 3rd party content in TSC can be found at [3rd Party/Freeware Installation Guide](#).

Notes

This scenario has been built around the player adhering to the given maximum speed and following the given schedule. Without those elements, the scenario may not play as intended. I originally intended to release this scenario for the BHBP v4.1 route but I get very low FPS when using that version of the route which makes the scenario unplayable. If the FPS improves in any future release I'll revisit the scenario for that route.

The Digital Traction Modern Wagon Pack 1 is used because the JIA wagons in the pack are the only ones I could find that represent the ones used on current (2025) trains that operate to/from St Blazey. As always, RIS222_Stock_List.pdf has details of the paths used for all rolling stock so you can double-check to ensure you have the items the scenario requires but everything is easily swappable in either TS_Tools or LocoSwap.

Feedback

I always welcome feedback so if you have any questions or constructive feedback on this scenario then you can leave a comment either on the download page for the scenario itself at <https://anakhastscenarios.com> or on the Anakha's TSC Scenarios thread at the Railworks Forum at <https://rail-works.freeforums.net/thread/1583/anakha-tsc-scenarios>.
