Other Payware (Optional)

Sky & Weather Enhancement Pack 2.0 - available from Armstrong Powerhouse

https://www.armstrongpowerhouse.com/enhancements/general/sky_weather_enhancement_pack_2.0

Installation

The RIS225_1M44_Shieldmuir_MT_to_Warrington_RMT_Part_3.zip file should contain 4 files:

this readme

RIS225_1M44_1620_Shieldmuir_MT_to_Warrington_RMT_Part_3.rwp

RIS225_1M44_1620_Shieldmuir_MT_to_Warrington_RMT_Part_3_Scenario_Briefing.pdf

RIS225_Stock_List.pdf

To install the rwp file, run the Train Simulator Utilities program from your Steam\SteamApps\common\RailWorks\ folder. Once the Utilities program is running, click the package manager tab at the top of the screen followed by the Refresh button on the right hand side. Once the refresh is complete, click the Install button on the right hand side, navigate to the location where you unzipped the RIS225_1M44_Shieldmuir_MT_to_Warrington_RMT_Part_3.zip file, select the rwp file and click the Open button. This should install the scenario. More details on installing 3rd party content in TSC can be found at [3rd Party/Freeware Installation Guide](#).

Notes

This scenario has been built around the player adhering to the given maximum speed and following the given schedule. Without those elements, the scenario may not play as intended.

The JNA wagons from 3DZug (plus reskins) are used because I purchased that pack when it was released. Since then Armstrong Powerhouse have released their JNA-T Wagon Pack. However, I'm not planning on getting the AP pack as it duplicates what I already have. If you have the AP pack rather than the 3DZug one then you could do a wagon swap and getting basically the same wagons as the ones I've used. As always, RIS225_Stock_List.pdf has details of the paths used for all rolling stock so you can double-check to ensure you have the items the scenario requires but everything is easily swappable in either TS_Tools or LocoSwap.

Feedback

I always welcome feedback so if you have any questions or constructive feedback on this scenario then you can leave a comment either on the download page for the scenario itself at <https://anakhastscenarios.com> or on the Anakha's TSC Scenarios thread at the Railworks Forum at <https://rail-works.freeforums.net/thread/1583/anakha-tsc-scenarios>.
