Train Length: 72m (239ft)

Train Weight: 157 tons

Operational Information: Nothing

### Scenario Briefing

Good evening driver. Today you are in charge of a TPE service from Manchester to Middlesbrough. You are currently in platform 1 at Manchester Piccadilly so release your doors to allow passengers to board and get set-up ready to depart as soon as permitted.

You are booked to depart at 19:30 but a delay on your inward journey has meant you are running a few minutes late. Once underway you have station stops at Stalybridge, Mossley, Greenfield, Marsden, Slaithwaite and Huddersfield on this leg of your journey.

Your train is formed of a 3 car Class 185 set and the maximum permitted speed for your train is 100 mph.

# Timetable

Location	Schedule			Platform/Line
	Arrival	Pass	Departure	
Manchester Piccadilly Pathed as Diesel multiple unit at 100mph	---	---	19:30	1/UE
Ardwick Jnc	---	19:33	---	UM
Ashburys	---	19:34½	---	2
Guide Bridge	---	19:38½	---	2/DH
Stalybridge	19:43	---	19:44½	4
Mossley	19:48½	---	19:50	2
Greenfield	19:53½	---	19:54½	2
Diggle Jnc	---	19:57	---	
Marsden 1 min pathing allowance	20:01½	---	20:03	1
Slaithwaite	20:05½	---	20:06½	1
Huddersfield	20:11½	---	---	8

UE - Up Electric  
UM - Up Main  
DH - Down Huddersfield

## Notes

This scenario has been built around the player adhering to the given maximum speed and following the given schedule. Without those elements, the scenario may not play as intended. All trains are taken from the timetable in operation on the day the scenario is set with adjustments here and there to cater for TSC and gameplay. Additionally, the scenario reflects what happened on that specific day.

Announcements are a compromise in this scenario. I have set the route for the player train but I could not find a calling pattern that you can use for a train heading to Middlesbrough that matches the calling pattern for the player train in this scenario. For example, you can use destination code 9290 or 9302 & they will make station announcements for all of the stations you stop at in this scenario but the announcements will also say the final destination for the train is somewhere other than Middlesbrough. If anyone checks out the stopping patterns for the destination codes given in the ATS Class 185 Announcement guide and finds one that does give the right stopping pattern for a train heading to Middlesbrough then please let me know.
