

Title: (RIS234) 6M03 16:53 Barrington PAD GBRf to Willesden Euroterminal GBRf (Part 3)

Version: 1.0

Description

Take a train of empty bogie box wagons to Willesden. In this part you'll go from Camden to your final destination. Please see RIS234_6M03_1653_Barrington_PAD_GBRf_to_Willesden_Euroterminal_GBRf_Part_3_Scenario_Briefing.pdf for your complete briefing including schedule.

Requirements

Route - Freeware

[SLTS] WCML South Route Upgrade v2.2 - available from Train Sim Community

<https://www.trainsimcommunity.com/mods/c1-train-sim-classic/c11-routes/i4931-slts-wcml-south-route-upgrade-v22>

Rolling Stock - Payware

EWS Class 66 v2.0 Loco Add-On - available from Steam

UKTS Freeware Pack - Clutter #1 - available from Rail-Sim.de

<https://rail-sim.de/forum/filebase/entry/8235-ukts-freeware-pack-clutter-1/>

Installation

The RIS234_6M03_Barrington_PAD_to_Willesden_Euroterminal_Part_3.zip file should contain 5 files & 1 folder:

this readme

Amended Bin File

RIS234_6M03_1653_Barrington_PAD_GBRf_to_Willesden_Euroterminal_GBRf_Part_3.rwp

RIS234_6M03_1653_Barrington_PAD_GBRf_to_Willesden_Euroterminal_GBRf_Part_3_Scenario_Briefing.pdf

RIS234_Scenery_List.pdf

RIS234_Stock_List.pdf

To install the rwp file, run the Train Simulator Utilities program from your Steam\SteamApps\common\RailWorks\ folder. Once the Utilities program is running, click the package manager tab at the top of the screen followed by the Refresh button on the right hand side. Once the refresh is complete, click the Install button on the right hand side, navigate to the location where you unzipped the RIS234_6M03_Barrington_PAD_to_Willesden_Euroterminal_Part_3.zip file, select the rwp file and click the Open button. This should install the scenario. More details on installing 3rd party content in TSC can be found at [3rd Party/Freeware Installation Guide](#).

Notes

This scenario has been built around the player adhering to the given maximum speed and following the given schedule. Without those elements, the scenario may not play as intended.

I have used the 3DZug Ealnos GBRf wagons & associated enhancement pack because I purchased the pack long before Armstrong Powerhouse subsequently released their version of the wagon. If you have the AP pack it should be simple to swap the wagons over although you would need to be careful to make the wagons are similar particularly in terms of length. Additionally, all other freight wagons (with the exception of the FSA/FTA ones are used as static stock in sidings so could be replaced with anything you have if you don't have the items I've used. As always, RIS234_Stock_List.pdf has details of the paths used for all rolling stock so you can double-check to ensure you have the items the scenario requires but everything is easily swappable in either TS_Tools or LocoSwap.

This scenario does include static scenery items which are not be critical in any way to running the scenario. If you don't have the items installed then you should be able to run the scenario but the scenery items will not appear as intended. RIS234_Scenery_List.pdf has details of the paths used for all scenery items used so you can double-check you have the items the scenario requires if you wish.

Please Note: The scenery item I've used - a modern yard spotlight tower from the UKTS Clutter Pack - is not, by default, set-up to be used in scenarios. A simple change to the relevant bin file of the item makes it useable in scenarios & I've made that change in my copy of the bin file. However, I do not know if the scenery item will work for anyone else if they have the original bin file & not the revised one I have. Therefore, I have included a copy of my revised version of the bin file in a folder called Amended Bin File with instructions on where to place the amended file.

Feedback

I always welcome feedback so if you have any questions or constructive feedback on this scenario then you can leave a comment either on the download page for the scenario itself at <https://anakhastscenarios.com> or on the Anakha's TSC Scenarios thread at the Railworks Forum at <https://railworks.freeforums.net/thread/1583/anakha-tsc-scenarios>.
