Installation

The RIS244_2P39_Yarmouth_to_Norwich.zip file should contain 4 files:

this readme

RIS244_2P39_2017_Yarmouth_to_Norwich.rwp

RIS244_2P39_2017_Yarmouth_to_Norwich_Scenario_Briefing.pdf

RIS244_Stock_List.pdf

To install the rwp file, run the Train Simulator Utilities program from your Steam\SteamApps\common\RailWorks\ folder. Once the Utilities program is running, click the package manager tab at the top of the screen followed by the Refresh button on the right hand side. Once the refresh is complete, click the Install button on the right hand side, navigate to the location where you unzipped the RIS244_2P39_Yarmouth_to_Norwich.zip file, select the rwp file and click the Open button. This should install the scenario. More details on installing 3rd party content in TSC can be found at [3rd Party/Freeware Installation Guide](#).

Notes

This scenario has been built around the player adhering to the given maximum speed and following the given schedule. Without those elements, the scenario may not play as intended.

The AP HST (MTU) Pack is only used for Mk3 coaches that can be seen stored in the sidings at Great Yarmouth so could be replaced them with any modern coaches if you don't have the AP pack & don't want to get it. Similarly, the Gold Star Trains Tamper, YQA Super Tench and ZZA Snowplough are only used as static stock so could be replaced with anything similar if you don't have the items I've used and don't wish to get them. As always, RIS244_Stock_List.pdf has details of the paths used for all rolling stock so you can double-check to ensure you have the items the scenario requires but everything is easily swappable in either TS_Tools or LocoSwap.

Feedback

I always welcome constructive feedback so if you have any questions or constructive feedback on this scenario then you can leave a comment either on the download page for the scenario itself at <https://anakhastscenarios.com> or on the Anakha's TSC Scenarios thread at the Railworks Forum at <https://rail-works.freeforums.net/thread/1583/anakha-tsc-scenarios>.
