Scenario Briefing

Good morning driver. Today you have been rostered on to the Marks Tey - Sudbury passenger service. You are going to be operating 2T01 the first passenger service of the day from Sudbury to Marks Tey but, before that, you need to operate 5T01 the ECS service from Colchester to Sudbury. You are currently in Colchester Up Sudbury siding so get set-up and depart as soon as you are ready.

Once underway you have booked stops at Colchester Up Passenger Loop and Marks Tey although, on both occasions, you can proceed if you have clear signals.

Your train is formed of a 4 car Class 755 set and the maximum permitted speed for your train is 100 mph.

Timetable

Location	Schedule			Platform/Line
	Arrival	Pass	Departure	
Colchester Up Sudbury Siding pathed as Class 755 on electric at 100mph	---	---	04:47	UPL

Chappel & Wakes Colne	---	05:05½	---	
Bures	---	05:09½	---	
Sudbury	05:17	18:31	---	

UPL - Up Passenger Loop
UM - Up Main
D&US - Down & Up Sudbury

Notes

This scenario has been built around the player adhering to the given maximum speed and following the given schedule. Without those elements, the scenario may not play as intended. All trains are taken from the timetable in operation on the day the scenario is set with adjustments here and there to cater for TSC and gameplay. Additionally, the scenario reflects what happened on that specific day.
