

Title: (RIS245) 5T01 04:47 Colchester to Sudbury

Version: 1.0

Description

Take an ECS service from Colchester to Sudbury. Please see RIS245_5T01_0447_Colchester_to_Sudbury_Scenario_Briefing.pdf for your complete briefing including schedule.

Requirements

Route - Freeware

Crouch Valley 3 - available from Trainsim.com or Internet Archive

Go to <https://www.trainsim.com/forums> then click on File Library and enter 32204 in the Keywords box and click Search

Or

Go to <https://archive.org/details/ukts-archive-files-32001-33000> then click on Show All Files and scroll down for 32204

Rolling Stock - Payware

Alan Thomson Simulation Class 755 FLIRT - available from Alan Thomson Sim

<https://alanthomsonsim.com/product/alan-thomson-simulation-class-755-flirt>

Class 321 Electric Multiple Unit Pack - available from Armstrong Powerhouse

https://www.armstrongpowerhouse.com/rolling_stock/emu_rs/class_321_electric_multiple_unit_pack

IOA/MWA Wagon Pack - available from A Robinson

<https://ko-fi.com/s/cb51af1196>

European Loco & Asset Pack - available from Steam

https://store.steampowered.com/app/208300/Train_Simulator_European_Loco__Asset_Pack

Rolling Stock - Repaints

UK Carriages #1 - available from Rail-Sim.de

<https://rail-sim.de/forum/filebase/entry/8258-uk-carriages-1>

UKTS Freeware Pack - UK Wagons #1 - available from Rail-Sim.de

<https://rail-sim.de/forum/filebase/entry/8263-ukts-freeware-pack-uk-wagons-1>

Other Payware (Optional)

Sky & Weather Enhancement Pack 2.0 - available from Armstrong Powerhouse

https://www.armstrongpowerhouse.com/enhancements/general/sky_weather_enhancement_pack_2.0

Installation

The RIS245_5T01_Colchester_to_Sudbury.zip file should contain 4 files:

this readme

RIS245_5T01_0447_Colchester_to_Sudbury.rwp

RIS245_5T01_0447_Colchester_to_Sudbury_Scenario_Briefing.pdf

RIS245_Stock_List.pdf

To install the rwp file, run the Train Simulator Utilities program from your Steam\SteamApps\common\RailWorks\ folder. Once the Utilities program is running, click the package manager tab at the top of the screen followed by the Refresh button on the right hand side. Once the refresh is complete, click the Install button on the right hand side, navigate to the location where you unzipped the RIS245_5T01_Colchester_to_Sudbury.zip file, select the rwp file and click the Open button. This should install the scenario. More details on installing 3rd party content in TSC can be found at [3rd Party/Freeware Installation Guide](#).

Notes

This scenario has been built around the player adhering to the given maximum speed and following the given schedule. Without those elements, the scenario may not play as intended. The Crouch Valley route is a nice route but I have always found the gradients to be a bit unrealistic in places and you always encounter odd, unannounced, speed limit drops in places that mean you frequently get overspeed warnings. If you can overlook those then it's a route that I think plays and looks OK.

All of the items from the ELAP and the associated UKTS packs are used to represent what you might reasonably expect to see at the EARM at Chappel and Wakes Colne Station so can be replaced with anything similar if you don't have the items I've used and don't wish to get them. Also the IOA/MWA wagons are only used as static stock in sidings so can be replaced with any engineers type wagons you might see in sidings on the current UK network if you don't have those particular wagons. As always, RIS245_Stock_List.pdf has details of the paths used for all rolling stock so you can double-check to ensure you have the items the scenario requires but everything is easily swappable in either TS_Tools or LocoSwap.

Feedback

I always welcome constructive feedback so if you have any questions or constructive feedback on this scenario then you can leave a comment either on the download page for the scenario itself at <https://anakhastscenarios.com> or on the Anakha's TSC Scenarios thread at the Railworks Forum at <https://rail-works.freeforums.net/thread/1583/anakha-tsc-scenarios>.
