Or

<https://archive.org/details/ukts-archive-files-40001>

Followed by Show All Files then scroll down to find 40124

Class 70 'Colas Rail' - available from DP Simulation

<https://www.dpsimulation.org.uk/rf72locomotives.html>

Arriva Rail Northern Class 170 - available from Major Wales Design

<https://www.major.wales/reskins/modern/NR>

Other Payware (Optional)

Sky & Weather Enhancement Pack 2.0 - available from Armstrong Powerhouse

https://www.armstrongpowerhouse.com/enhancements/general/sky_weather_enhancement_pack_2.0

Installation

The RIS248_9M06_Newcastle_to_Liverpool_Lime_Street_Part_1.zip file should contain 4 files:

this readme

RIS248_9M06_0606_Newcastle_to_Liverpool_Lime_Street_Part_1.rwp

RIS248_9M06_0606_Newcastle_to_Liverpool_Lime_Street_Part_1_Scenario_Briefing.pdf

RIS248_Stock_List.pdf

To install the rwp file, run the Train Simulator Utilities program from your Steam\SteamApps\common\RailWorks\ folder. Once the Utilities program is running, click the package manager tab at the top of the screen followed by the Refresh button on the right hand side. Once the refresh is complete, click the Install button on the right hand side, navigate to the location where you unzipped the RIS248_9M06_Newcastle_to_Liverpool_Lime_Street_Part_1.zip file, select the rwp file and click the Open button. This should install the scenario. More details on installing 3rd party content in TSC can be found at [3rd Party/Free-ware Installation Guide](#).

Notes

This scenario has been built around the player adhering to the given maximum speed and following the given schedule. Without those elements, the scenario may not play as intended.

Almost all of the freight wagons used in this scenario are static items sitting in sidings so can be replaced with any other wagons you might reasonably expect to see on the current UK network if you don't have the items I've used and don't wish to get them. As always, RIS248_Stock_List.pdf has details of the paths used for all rolling stock so you can double-check to ensure you have the items the scenario requires but everything is easily swappable in either TS_Tools or LocoSwap.

Feedback

I always welcome constructive feedback so if you have any questions or constructive feedback on this scenario then you can leave a comment either on the download page for the scenario itself at <https://anakhastscenarios.com> or on the Anakha's TSC Scenarios thread at the Railworks Forum at <https://rail-works.freeforums.net/thread/1583/anakha-tsc-scenarios>.
