Installation

The RIS250\_9M06\_Newcastle\_to\_Liverpool\_Lime\_Street\_Part\_3.zip file should contain 4 files:

this readme

RIS250\_9M06\_0606\_Newcastle\_to\_Liverpool\_Lime\_Street\_Part\_3.rwp

RIS250\_9M06\_0606\_Newcastle\_to\_Liverpool\_Lime\_Street\_Part\_3\_Scenario\_Briefing.pdf

RIS250\_Stock\_List.pdf

To install the rwp file, run the Train Simulator Utilities program from your Steam\SteamApps\common\RailWorks\ folder. Once the Utilities program is running, click the package manager tab at the top of the screen followed by the Refresh button on the right hand side. Once the refresh is complete, click the Install button on the right hand side, navigate to the location where you unzipped the RIS250\_9M06\_Newcastle\_to\_Liverpool\_Lime\_Street\_Part\_3.zip file, select the rwp file and click the Open button. This should install the scenario. More details on installing 3<sup>rd</sup> party content in TSC can be found at [3rd Party/Free-ware Installation Guide](#).

## Notes

This scenario has been built around the player adhering to the given maximum speed and following the given schedule. Without those elements, the scenario may not play as intended.

The Class 08 is used as static stock so could be replaced with any Class 08 if you don't want to use the MJW pack and its dependencies. As always, RIS250\_Stock\_List.pdf has details of the paths used for all rolling stock so you can double-check to ensure you have the items the scenario requires but everything is easily swappable in either TS\_Tools or LocoSwap.

## Feedback

I always welcome constructive feedback so if you have any questions or constructive feedback on this scenario then you can leave a comment either on the download page for the scenario itself at <https://anakhastscenarios.com> or on the Anakha's TSC Scenarios thread at the Railworks Forum at <https://railworks.freeforums.net/thread/1583/anakha-tsc-scenarios>.
