

Amended Bin File

In the Amended Bin File folder you will find 1 file:

Yard Light Tower Modern.bin

You should move this to the following folder:

Steam\steamapps\common\RailWorks\Assets\UKTS_FP\Clutter\KN\Yard Lamps Old

Please be aware that this will overwrite your existing copy of the Yard Light Tower Modern.bin file so either make a backup of the file before the overwrite or make sure you have the UKTS Free-ware Pack - Clutter #1 file so you can reinstall if necessary.

If anyone is interested then the only change to the file was to amend the following line:

```
<ValidInScenarios d:type="cDeltaString">eFalse</ValidInScenarios>
```

to:

```
<ValidInScenarios d:type="cDeltaString">eTrue</ValidInScenarios>
```
