## Scenario Briefing

Good morning driver. Today you have been rostered onto the Manningtree - Harwich Town service. You are going to be operating 2A01 the first passenger service of the day from Harwich Town to Manningtree but, before that, you need to operate 5A01 the ECS service from Colchester to Harwich Town. You are currently in the sidings at Colchester so get set-up and depart as soon as you are ready.

Once underway you have booked stops at Colchester station and Harwich International only.

Your train is formed of a 4 car Class 755 set and the maximum permitted speed for your train is 100 mph.

# Timetable

Location	Schedule			Platform/Line
	Arrival	Pass	Departure	
Colchester CSD pathed as Class 755 on electric at 100mph	---	---	04:45	
Colchester service stops for staffing reasons	04:50	---	04:51	DM/2
Manningtree	---	04:58½	---	3/UM/DH
Parkeston Goods Jnc	---	05:09½	---	
Harwich International 1 min engineering allowance service stops for staffing reasons	05:11½	---	05:12½	2/U&DH
Harwich Town	05:19	---	---	

DM - Down Main  
UM - Up Main  
DH - Down Harwich  
U&DH - Up & Down Harwich

## Notes

In reality this service is operated by a Class 720. As we don't have a Class 720 available for TSC a Class 755 substitutes which (I think) isn't beyond the realms of possibility.

This scenario has been built around the player adhering to the given maximum speed and following the given schedule. Without those elements, the scenario may not play as intended. All trains are taken from the timetable in operation on the day the scenario is set with adjustments here and there to cater for TSC and gameplay. Additionally, the scenario reflects what happened on that specific day.
