Installation

The RIS125_5Z31_Goodrington_CHS_to_Crewe_HS_AP.zip file should contain 4 files:

this readme

RIS125_5Z31_1533_Goodrington_CHS_to_Crewe_HS_AP.rwp

RIS125_5Z31_1533_Goodrington_CHS_to_Crewe_HS_Scenario_Briefing_AP.pdf

RIS125_Stock_List_AP.pdf

To install the rwp file, run the Train Simulator Utilities program from your Steam\SteamApps\common\RailWorks\ folder. Once the Utilities program is running, click the package manager tab at the top of the screen followed by the Refresh button on the right hand side. Once the refresh is complete, click the Install button on the right hand side, navigate to the location where you unzipped the RIS125_5Z31_Goodrington_CHS_to_Crewe_HS_AP.zip file, select the rwp file and click the Open button. This should install the scenario. More details on installing 3rd party content in TSC can be found at [3rd Party/Freeware Installation Guide](#).

Notes

As always, RIS125_Stock_List_AP.pdf has details of the paths used for all rolling stock so you can double-check to ensure you have the items the scenario requires but everything is easily swappable in either TS_Tools or LocoSwap.

Feedback

I always welcome constructive feedback so if you have any questions or constructive feedback on this scenario then you can leave a comment either on the download page for the scenario itself at <https://anakhastscenarios.com> or on the Anakha's TSC Scenarios thread at the Railworks Forum at <https://railworks.freeforums.net/thread/1583/anakha-tsc-scenarios>.
