Difficulty: Easy

Train Type: Diesel Railcar

Train Category: Passenger Service

Max Speed: 120kph

Train Length: 25m (82ft)

Train Weight: 43 tons

Operational Information: Nothing

## Scenario Briefing

Good evening driver. Rhenus Veniro currently hold the franchise to operate passenger services on the Moselweinbahn between Bullay and Traben-Trarbach utilising Stadler RS1 railbuses. Today you have been rostered on to this service and you are now at Traben-Trarbach ready to depart for an evening trip to Bullay. You have some time to board your passengers and get set-up before your departure time of 21:01. You are scheduled to connect with two RB81 services heading to Koblenz and Trier respectively so try to be on time to allow your passengers to make their connections.

The maximum permitted speed for your train is 120kph

## Weekly/Daily/Special Operating Notices

None

## Timetable

	Schedule			
Location	Arrival	Pass	Departure	Platform/Line
Traben-Trarbach	---	---	21:01	
Kovenig	21:06	---	21:06	1
Reil	21:13	---	21:13	
Bullay	21:19	---	---	7

## Notes

I know there are a number of scenarios already available that cover the Bullay to Traben-Trarbach branch line but this is my version. As you might expect, it's pretty short and quite straightforward. The times for this scenario are based on current timetables with adjustments here and there to cater for TS.
