Other Payware (Optional)

Sky & Weather Enhancement Pack 2.0 - available from Armstrong Powerhouse

https://www.armstrongpowerhouse.com/enhancements/general/sky_weather_enhancement_pack_2.0

Installation

The RIS269_BLS40124_Kaldenkirchen_to_Domodossola_CT186.zip file should contain 6 files:

this readme

RIS269_BLS40124_1630_Kaldenkirchen_to_Domodossola_CT186.rwp

RIS269_BLS40124_1630_Kaldenkirchen_to_Domodossola_CT186_Scenario_Briefing_DE.pdf

RIS269_BLS40124_1630_Kaldenkirchen_to_Domodossola_CT186_Scenario_Briefing_EN.pdf

RIS269_Scenery_List_CT186.pdf

RIS269_Stock_List_CT186.pdf

To install the rwp file, run the Train Simulator Utilities program from your Steam\SteamApps\common\RailWorks\ folder. Once the Utilities program is running, click the package manager tab at the top of the screen followed by the Refresh button on the right hand side. Once the refresh is complete, click the Install button on the right hand side, navigate to the location where you unzipped the RIS269_BLS40124_Kaldenkirchen_to_Domodossola_CT186.zip file, select the rwp file and click the Open button. This should install the scenario. More details on installing 3rd party content in TSC can be found at [3rd Party/Freeware Installation Guide](#).

Notes

This scenario has been built around the player adhering to the given maximum speed and following the given schedule. Without those elements, the scenario may not play as intended. I am not very knowledgeable about German railways so if there any obvious errors in this scenario then please let me know.

As always, RIS269_Stock_List_CT186.pdf has details of the paths used for all rolling stock so you can double-check to ensure you have the items the scenario requires but everything is easily swappable in either TS_Tools or LocoSwap.

This scenario does include static scenery items which are not be critical in any way to running the scenario. If you don't have the items installed then you should be able to run the scenario but the scenery items will not appear as intended. RIS269_Scenery_List_CT186.pdf has details of the paths used for all scenery items used so you can double-check you have the items the scenario requires if you wish.

Feedback

I always welcome constructive feedback so if you have any questions or constructive feedback on this scenario then you can leave a comment either on the download page for the scenario itself at <https://anakhastscenarios.com> or on the Anakha's TSC Scenarios thread at the Railworks Forum at <https://rail-works.freeforums.net/thread/1583/anakha-tsc-scenarios>.
