## Scenario Briefing

Good afternoon driver. Engineering work is planned for this coming weekend to replace a collapsed sewer at Gnöben. The work will require the use of a kranzug which was moved from Leipzig to Königsborn overnight. The last leg of the trip is a short hop from Königsborn to Gnöben and you have been rostered on to this service.

You have arrived at Biederitz where you've encountered an adverse signal. You can proceed as soon as permitted.

Your motive power is a BR218 and the maximum permitted speed for your train is 100kph.

## Weekly/Daily/Special Operating Notices
