Diverse Leute - available from Rail-Sim.de

<https://rail-sim.de/forum/filebase/entry/1095-diverse-leute/>

Installation

The RIS286_NJ421_Amsterdam_Centraal_to_Innsbruck_Hbf.zip file should contain 6 files:

this readme

RIS286_NJ421_1906_Amsterdam_Centraal_to_Innsbruck_Hbf.rwp

RIS286_NJ421_1906_Amsterdam_Centraal_to_Innsbruck_Hbf_Scenario_Briefing_DE.pdf

RIS286_NJ421_1906_Amsterdam_Centraal_to_Innsbruck_Hbf_Scenario_Briefing_EN.pdf

RIS286_Scenery_List.pdf

RIS286_Stock_List.pdf

To install the rwp file, run the Train Simulator Utilities program from your Steam\SteamApps\common\RailWorks\ folder. Once the Utilities program is running, click the package manager tab at the top of the screen, followed by the Refresh button on the right-hand side. Once the refresh is complete, click the Install button on the right-hand side, navigate to the location where you unzipped the RIS286_NJ421_Amsterdam_Centraal_to_Innsbruck_Hbf.zip file, select the rwp

file and click the Open button. This should install the scenario. More details on installing 3rd party content in TSC can be found at [3rd Party/Freeware Installation Guide](#).

Notes

This scenario has been built around the player adhering to the given maximum speed and following the given schedule. Without those elements, the scenario may not play as intended.

I have used a number of payware packs for freight wagons but the majority of them can be replaced with items from the 3DZug Verkehrspack Güterwagen pack if you don't have the items I've used. RIS286_Stock_List.pdf has details of the paths used for all rolling stock so you can double-check to ensure you have the items the scenario requires, but everything is easily swappable in either TS_Tools or LocoSwap.

This scenario does include static scenery items, which are not critical in any way to running the scenario. If you don't have the items installed then you should be able to run the scenario, but the scenery items will not appear as intended. RIS286_Scenery_List.pdf has details of the paths used for all scenery items used so you can check you have the items the scenario requires if you wish.

Feedback

I always welcome constructive feedback so if you have any questions or constructive feedback on this scenario then you can leave a comment either on the download page for the scenario itself at <https://anakhastscenarios.com> or on the Anakha's TSC Scenarios thread at the Railworks Forum at <https://railworks.freeforums.net/thread/1583/anakha-tsc-scenarios>.
