Scenario Briefing

Good morning driver. The Köbler Wald Museumsbahn (KWM) only operates trains on Sundays and other special occasions, and today being a summer Sunday is one of those days. Köblitzer Bergbahn AG (KBB) hold a franchise to operate services between Köblitz and Hosvenn and Köblitz and Köbler Wald but the services between Köblitz and Köbler Wald do not operate on Sundays so KWM share services with KBB between Hosvenn and St Rudolf and then have the section from St Rudolf to Köbler Wald to themselves.

KWM currently own 2 VT98 units, a single steam locomotive and heritage coaches. As a volunteer qualified to drive the KWM rolling stock, you will be taking the VT98 railbuses on the first KWM train of the day from Hosvenn to Köbler Wald and then returning to Hosvenn. On this leg of your journey you will go from Hosvenn to Köbler Wald.

Your train is formed of 2 VT98 units and the maximum permitted speed for your train is 90kph.
